

BHUVANI THIYAGARAJAN

Project Manager — Product, Operations & Cross-Functional Delivery

Luton, England, United Kingdom • [linkedin.com/in/bhuvani-thiyagarajan-bt1992](https://www.linkedin.com/in/bhuvani-thiyagarajan-bt1992)

PROFESSIONAL SUMMARY

Project professional with over 10 years of experience spanning software development, front-end engineering, and cross-functional project leadership. Started my career in 2014 as a Java Developer before moving into front-end development and project support, and have since built a career leading product delivery, operations, and multi-department coordination across international teams. I currently manage the Dental Professional Portal (DPP) product and lead project operations at Silicon Technix, coordinating between development, design, sales, marketing, and client-facing teams to keep delivery on track. I hold an MSc in International Project Management from Coventry University, awarded with First Class Distinction. I'm adaptable, reliable, and quick to learn — and I enjoy the work of keeping teams organised, unblocked, and moving toward results.

CORE COMPETENCIES

Project & Delivery

- Agile & Waterfall methodologies
- Milestone & roadmap planning
- Requirements gathering
- Risk & issue escalation
- Cross-team coordination

Client & Stakeholder

- Client relationship management
- KPI monitoring & reporting
- Stakeholder communication
- Contract & requirement docs
- Vendor & collaboration mgmt

Leadership & Systems

- Team leadership & mentoring
- Recruitment & onboarding
- Cloud: AWS & Azure Knowledge
- CRM systems (Zoho, Odoo, Dynamic 365)
- Helpdesk & support triage
- Coaching & training

PROFESSIONAL EXPERIENCE

DPP Project Manager

Dental Professional Portal • Dec 2022 — Present • United Kingdom, Hybrid

- Own project planning and requirements formulation for the DPP platform, translating product goals into actionable milestones.
- Lead and coordinate diverse, cross-functional teams — including development, QA, design, and data analytics — across the DPP roadmap, from dashboard features to the HR and holiday/attendance modules.
- Drive research and development to shape the product plan, including reviewing platform functionality and identifying improvement areas across financial, HR, and compliance modules.
- Maintain close, ongoing collaboration with clients and internal stakeholders (including direct reporting to the company director) to ensure timely delivery and clear requirement sign-off.
- Coordinate go-to-market activity for DPP, including seasonal campaign planning (e.g. Black Friday, Christmas offers) and content/blog production working with subject-matter contributors.

Project Manager

Silicon Technix Ltd • Apr 2022 — Present • United Kingdom

- Coordinate across internal departments — development, design, sales, marketing, and testing — setting milestones and tasks and keeping multiple concurrent projects on track.
- Manage client accounts and data for website design, maintenance, and digital marketing clients, including reviewing SEO reports, coordinating content/blog delivery, and tracking site changes through to completion.
- Led the migration of CRM data and processes from Zoho to Odoo and finally to Dynamic 365, coordinating data transfer, access setup, and team training through the transition.

- Monitor client KPIs and proactively flag and resolve client- or supplier-side issues; record and triage incoming queries and system issues via the Helpdesk system.
- Support customer and system support testing for new developments and enhancements, and hold regular online meetings on key system projects with clients and internal teams.
- Initiated and coordinated the Cyber Essentials and ISO 27001 compliance review process for the DPP platform, working with a dedicated cybersecurity resource.
- Support recruitment and onboarding — identifying resourcing needs (cybersecurity, testing, data analyst roles), writing job descriptions, and creating structured requirement documents and testing environments for new starters and interns.
- Mentor junior team members and interns across data analytics and QA functions, providing hands-on guidance and structured feedback.
- Continually assess systems and processes, suggesting and implementing improvements to data accuracy and workflow efficiency.

Web Developer

Tata Consultancy Services • Jul 2014 — May 2022 • 7 yrs 11 mos

- Built front-end and Java-based application features across enterprise projects, working within both Agile and Waterfall delivery frameworks.
- Progressed from a developer role into project support and coordination, laying the foundation for the cross-functional project management career that followed.
- Coached and mentored junior developers, and collaborated closely with cross-functional and international teams throughout the project lifecycle.

KEY PROJECT HIGHLIGHTS

DPP Product Leadership

Managing the roadmap for a cloud-based, Cyber Essentials-certified back-office platform used by UK dental practices — spanning financial/payroll, HR, and CQC/GDC compliance modules.

CRM Migration (Zoho → Odoo → D365)

Led the end-to-end coordination of migrating client and sales data from Zoho CRM into Odoo and then to D365, including data alignment, access provisioning, and team onboarding to the new system.

Multi-Client Digital Delivery

Oversaw SEO reporting, content, and website update cycles across multiple dental practice clients simultaneously, coordinating between developers, content writers, and client stakeholders to keep delivery on schedule.

Team Building & Mentoring

Wrote job descriptions and structured onboarding/requirement documents for new hires across QA, data analytics, and reporting functions; provided hands-on mentoring recognised directly by a former intern (see recommendation below).

Security & Compliance Initiative

Initiated the Cyber Essentials and ISO 27001 review process for the DPP platform, working alongside a specialist cybersecurity resource to strengthen the product's security posture.

EDUCATION

MSc, International Project Management with Extended Professional Practice

Coventry University London • Sep 2021 — Jun 2023 • First Class with Distinction

BE, Instrumentation Engineering

M. Kumarasamy College of Engineering • 2010 — 2014 • First Class

CERTIFICATIONS

34 licenses & certifications on record, including:

- AI Masterclass — Freedom With AI (Feb 2026) — Generative AI tools and frameworks
- Nano Tips to Turn Time into Happiness with Shawn Hunter — LinkedIn Learning (Jan 2026) — Time management
- Agile & Waterfall Methodologies
- Coaching & Mentoring

RECOMMENDATION

Dipa Parmar — Digital Marketing Analyst (direct report, Data Analyst internship)

"I had the privilege of working under Bhuvani Ma'am during my Data Analyst internship... Her mentorship went beyond just technical training. She was always approachable, patient, and willing to help me understand complex concepts... What stood out most was her ability to balance leadership with genuine encouragement. I highly recommend Bhuvani Thiagarajan to anyone looking for a knowledgeable, supportive, and inspiring leader."
